

Dispute Resolution Policies (February 28, 2014)

All registrants must agree as part of their registration agreements with their sponsoring registrar to abide by the Dispute Resolution Policies implemented by the Registry for the .SAARLAND TLD. All registrants are expected to inform themselves about these Policies.

As such, the following Dispute Resolution Procedures apply:

The Uniform Domain-Name Dispute-Resolution Policy (UDRP):

All registrars must follow the Uniform Domain-Name Dispute-Resolution Policy (often referred to as the "UDRP"). Under the Policy, most types of trademark-based domain-name disputes must be resolved by agreement, court action, or arbitration before a registrar will cancel, suspend, or transfer a domain name. Disputes alleged to arise from abusive registrations of domain names (for example cybersquatting) may be addressed by expedited administrative proceedings that the holder of trademark rights initiates by filing a complaint with an approved dispute-resolution service provider.

The Uniform Rapid Suspension Procedure (URS):

The Uniform Rapid Suspension System is a rights protection mechanism that complements the existing UDRP by offering a lower-cost, faster path to relief for rights holders experiencing the most clear-cut cases of infringement.
